

# Eicosanoid and cytokine analysis

AL Antonie LECHNER JE Julia Esser-von Bieren

Updated date: Aug 2, 2021

 An abbreviated version of this protocol was published in Science Translational Medicine in Apr 2020  
An anti-inflammatory eicosanoid switch mediates the suppression of type-2 inflammation by helminth larval products  
DOI: 10.1126/scitranslmed.aay0605
